Excisions: Excisions Recommended And Made

Reasons for excisions:

An excision is required to remove a trailer entitled *Black Pipe Layers 4*. The trailer degrades, demeans, and dehumanises women to a high extent and degree by presenting a number of images, spliced together to intentionally present an impression of physically powerful men treating women in a manner which is aggressive and contemptuous. The men use the women solely as a means to demonstrate their physical and sexual prowess, at the expense of the women, who present as being uncomfortable and, at times, in distress.

In this instance, the distributor made the excision required and supplied the Classification Office with a version of the publication that differs from the original video recording in some respects. The "Bonus Footage" component on the original video recording has not been included and the publication contains different notices. The content of the feature and three remaining trailers is identical.
